Webinar Overview

- **Speakers:**
  - Judy Solomon
    Vice President for Health Policy
    Center on Budget and Policy Priorities
  - David Machledt, Ph.D.
    Policy Analyst
    National Health Law Program

- Questions and Answers
Trends in Medicaid Waivers

Disability and Aging Collaborative

Judith Solomon
October 13, 2017
“Experimental, pilot or demonstration project” that “in the judgment of the secretary, [is] likely to assist in promoting the objectives of the program.”
So states can “furnish (1) medical assistance on behalf of families with dependent children and of aged, blind, or disabled individuals, whose income and resources are insufficient to meet the costs of necessary medical services, and (2) rehabilitation and other services to help such families and individuals attain or retain capability for independence or self-care.”
Key Requirements for 1115 Waivers

• Must be an experimental, pilot or demonstration project

• Project must be likely to assist in promoting the objectives of the Medicaid statute

• Project must be budget neutral to the federal government

• State may “waive” provisions in section 1902 of the Medicaid statute, which lists requirements for state Medicaid plans, but only to the extent necessary to carry out the demonstration
HHS Criteria for Evaluating Whether Waivers Promote Medicaid’s Objectives*

Demonstration project must do one or more of following:

• Increase and strengthen overall coverage
• Increase or strengthen access to providers
• Improve health outcomes for Medicaid and low-income populations
• Increase efficiency and quality of care

Price/Verma Letter to Governors Suggests New Approach*

- Make SPA and waiver process “more efficient”

- Support “innovative approaches” to increase employment

- Align Medicaid and private insurance
  - Alternative benefit designs and cost-sharing models including HSAs
  - Enforceable premiums
  - Emergency room co-payments
  - Waive non-emergency medical transportation (NEMT)
  - Waive presumptive eligibility and retroactive coverage

Figure 2
States with Approved Section 1115 Medicaid Demonstration Waivers, September 2017

Landscape of Approved Section 1115 Medicaid Waivers

- Delivery System Reform: 16
- Behavioral Health: 12
- MLTSS: 12
- Other Targeted Waivers: 16
- Medicaid Expansion: 7
- Work Requirements: 0
- Eligibility and Enrollment Restrictions: 7
- Benefit Restrictions, Copays, Healthy Behaviors: 5

Notes: Some states have multiple approved waivers, and many waivers are comprehensive and may fall into a few different areas.
Pending Medicaid Waivers Include Provisions That Have Never Been Approved

• Work requirements (AR, AZ, IN, KY, ME, WI)
• Drug screening and testing (WI)
• Time limit on coverage (AZ, ME, WI)
• Limit Medicaid expansion coverage to people below poverty line (AR)
• Lock-out for failure to renew eligibility (IN, KY)

1115 Waivers: Innovation or Erosion?

Medicaid is tailored for low-income populations
• *e.g.* Low cost sharing and premiums
• Transportation to medical appointments, if needed
• Robust services for children and adolescents (EPSDT)

Innovations can drive better, more efficient care, but…

Waiving key guardrails can have predictable consequences.

IMPACTS ON OLDER ADULTS & PEOPLE WITH DISABILITIES
Impacts on Older Adults & People with Disabilities

Coverage for older adults and people with disabilities = large share of Medicaid costs = attractive target for budget cuts.

- Direct Threats
- Waiver Creep
- Collateral damage – Purged by Paperwork

Visit healthlaw.org to access publications related to this topic
Direct Threats

States have already waived or proposed waiving Medicaid provisions affecting older adults and people with disabilities, such as:

- Retroactive eligibility (IA, ME)
- Changing transfer penalty rules for assets (ME)
- Managed care for Long-term Supports & Services
- Blanket waivers of IMD exclusion (MA)
Waiver Creep

States have already waived a provision for one population seek to expand to others:

- Premiums/Cost sharing
- Non-emergency Medical Transportation (NEMT)
- Plans with more limited benefits
Collateral Damage – Purged by Paperwork

The process of identifying, screening, & verifying exemptions for people with disabilities increases red tape and lowers enrollment:

• Work requirements and medical frailty
• Partial expansion of Medicaid
• Premiums/higher cost sharing
Collateral Damage – Purged by Paperwork

Reasons for Non-Payment of Premiums, Healthy Indiana Plan Basic Members

- Could not Afford: 34%
- Confusion on payment process: 25%
- Did not know payment required: 24%
- Other: 17%

HOW TO WEIGH IN
Visit healthlaw.org to access publications related to this topic
1115 Application & Review Process

- Negotiation between State & CMS
- Detailed Application
- Approval packet:
  - Award Letter
  - Special Terms & Cond.
  - Budget neutrality agreement
- Implementation
- Evaluation and transparent reporting
1115 Application & Review Process - Comments & Hearings

State Level

• Notice & “comprehensive description” of demonstration
• Min. 30 day comment period
• At least 2 public hearings
• Summary & response to public comments, including any changes made

Federal Level

• 15 days to determine completeness
• Min. 30 day comment period
• CMS approval/denial no sooner than 15 days after comments close
• Usually negotiations last longer

Visit healthlaw.org to access publications related to this topic
Wherefore Commenting?

- State must respond to comments and identify changes
- Number and quality of comments matter in negotiations and potentially in litigation
- Substantive comments on the potential policy impacts
  - Expert evaluation
  - Personal stories
  - Relevant research

Visit healthlaw.org to access publications related to this topic.
Structure of 1115 Demonstrations

1. Is it experimental? What is it testing?
2. Is it likely to assist in promoting Medicaid objectives?
3. Is it within the scope of § 1115 authority?
   • Waive compliance with requirements of Social Security Act § 1902
   • To extent and for period needed
   • Special limitations (e.g. Cost sharing)
Budget Cuts are not a Hypothesis

Courts: “A simple benefit cut, which might save money, but has no research or experimental goal, would not satisfy this requirement.”

Question goals such as “alignment with commercial market” with no clear experiment.
What else can you do?

- Media strategy
- Work with state legislature (depending)
- Push for robust independent 1115 evaluation
